RECOMMENDATION

Approve Upgrade to Audio/Visual System in the Amount of \$1,145.63

DISCUSSION

The Audio/Visual System in the Hall, also known as the bingo system, is more than 10 years old. Not only is the technology out of date, but it is also in need of repair due to a lot of use. In early July, the Hall experienced a power outage and we believe this caused the system to malfunction. Paradise Audio, which initially installed the system, determined that some of the components were either damaged in the power outage or simply wore out. The analog (old technology) video adapters were replaced at a cost of \$873, which is included in this month's invoices to be paid. The system was usable again, but in a limited capacity. Additional upgrades are needed so that the system can be fully used and the small TVs can be turned off and on without using a ladder to access each one. These additional upgrades will also make it less complicated to use. The total cost is \$1,145.63.
